Special General Meeting to discuss the Fire Territory Additional Appropriations for Fire Station Design.

NCFD Chief Josh Schweizer stood at the podium and presented reasoning for the request for additional appropriations. They would like to spend up to \$35,000 of monies that are in their general fund for a study that will look at the simple programming for what a new fire station would look like and preliminary design which would be turned over to the county to include in their budgetary numbers and possibly figure that money into their bond. There are no guarantees that the county will even give them a cent for a new fire station, but this design can be used in the future, if not. If the Town approves the appropriations then they will put out an RFQ for the entire process. The request for approval will be added to the March 3rd Town Council agenda.
