Work Session to discuss the Tree Initiative

The discussion ensued that there is a donation from Amazon, through a landscape contract, of approximately 125 trees (which are 2-3" in size). This donation would include donated labor to plant and water for 1 year. This is to help the Town for their Tree Initiative to replace trees that have been removed through different projects throughout the town. The variety of trees range from Honey locust, Ginko, and others. The trees are shallow rooting so as not to damage the new sidewalks. The trees will be planted in tree lawns or within 5' of lawns (from the street curb) where there are no tree lawns and where there is less underground infrastructure. The streets identified at this time for planting are where new sidewalks have been completed, such as Ben, Ada, and Elm. More talks will be had to determine where they will be planted and how to address the residents with the information.

Adjournment

President Kauffman adjourned the meeting at 6:25PM.

Marcy Kauffman, President
